

Education is a means of sharpening the mind of man both spiritually and intellectually.

Our aim is to collaborate and corroborate all the energies of a child in the most productive direction. Hence academics and CCA go hand in hand and explores the child's niche.

Our teachers as trained, qualified, mentors play a role of an important catalyst in bringing clarity to the mind of our young ones in order to choose their livelihood based upon their interest and ability plus find a value based purpose in their lives which is pertinent for their inner harmony. And magic ensues when purpose of life becomes the means of livelihood too. An understanding & inner peace ensues in the personality of the child which helps him to develop into a complete man of sound character, values and self reliance

NYMPHAEA S.R.
PRINCIPAL

At Nosegay, we prepare learners to meet rapid changes happening all around us by exposing them to upgraded academic knowledge and co-scholastic activities to make them aware about their potential. We encourage our children to ask, imagine, explore the existence around them.

Increasingly, the traditional view of the teacher, focussing exclusively on the individual learner is going through a paradigm shift to a teacher as a member of a team that includes educational specialists, other teachers, parents and the entire community of which the learner is a part.

Perhaps it is for this reason that Nosegay Alumni are excelling the world over.

Ashok Bhargawa
Chairman

Nosegay Public School is an amalgamation of competent teachers, state-of-the-art infrastructure and an experienced and efficient administration. Our philosophy of education is meeting the needs of the individual child. Children acquire knowledge and skills easily if we make the surroundings stimulating and purposeful. We believe it is our responsibility as educators to nurture and develop every student to his/her maximum potential. Our vision is to produce conscientious, smart and confident citizens of India who will go out into the world and make us proud.

With sincere and warm regards

Dr. Gurwinder Kaur Bajwa
Vice Principal

There is a prime need for striking a balance between syllabus, curriculum, books and co-curricular activities. Co-curricular activities groom the students in the Art of living and working together. These bring about aesthetic development of the students like character building, inculcation of spiritual and moral values, physical growth and creativity. Co-curricular activities teach the students to stand up for their rights.

A Chinese proverb very aptly states
"Teach me, and I will forget.
Show me, and I might remember
Involve me, and I will never forget."

So let us all join hands in the holistic development of students.

Rachna Bhatnagar
Director CCA

The future belongs to those who are Inquirers, Knowledgeable, Thinkers, Principled, Communicators, Open-minded, Risk Takers, Reflective and Ready for Change. Evolving and bettering yourself is wonderful. We don't let anyone stagnate. Our students acquire the ability to constantly raise the bar higher and set standards that will help them evolve. Steady training makes our children cause the change and lead. They are taught to trust themselves. We inspire our students to create the kind of self they will be happy to live with. With our world class facilities, new methods and an array of opportunities, we ensure that each child receives exceptional, intellectual, personal, emotional and social grooming, thereby blooming into a strong individual with refined soft skills

Manisha Aggarwal
Director Academic

The objective of education is not merely to enable our children gain their daily bread and to acquire pleasant means of recreation, but that they should be socially responsible. Hence holistic development of the child into a courageous, kind, compassionate, rational being is pertinent.

A correct balance in the IQ, EQ level and his value system would ascertain his response towards the society at large. Discipline is a way through which we teach our children the importance of values. It is important to let our kids know what behaviour is approved and what is disapproved and to motivate them to behave in accordance with moral standards. This is easiest to achieve during the early childhood years, where major emphasis is placed on the discipline, values, motivation, rewards etc.

As a KG Director, I personally see to it that our children are brought up in a healthy environment, be it home, school or anywhere else because their correct grooming will decide their standard of living.

Director K.G.
Mrs. Suren Suden

Examinations

Examinations are very important aspect of our life. Exams teach us a lot of things and give us training in various qualities like punctuality, writing skills, time management, expressing our thoughts and opinion etc. Without exams it is very difficult to find out the real knowledge of an individual student. Exams are a great motivating factor for the students. It increases memory, knowledge, skill, talent and interest of the students.

People have a notion that exams bring lot of stress. But life itself is an examination and our true talent is how well we pass each exam of life. The lesson that all of us should learn from the examination is that "Success and failure are part and parcel of life".

Never be proud of your success and never get disheartened if you are not successful.

Remember –
"If you find your task is hard,
Time will bring you your reward,
Try, try again."

Sangeeta Chhibber
Director Assessment

Somewhere, something incredible is waiting to be known- Carl Sagan

I came across this amazing quote quite suddenly when i was looking for some important information in the internet and realized how relevant it is for all of us : Children, parents and teachers. There is never any point in the life of a person when he can sit back and say "There is nothing more to learn. I can relax with the comforting thought that the universe around me is an open book. I know it all".

Education is not just about the subjects that are taught in school. It is a life long process. Parents and teachers must encourage children to ask as many questions as they can. For it is in wanting to know that will result in actually getting to know. So my message to the staff, students and parents to utilize the enriched libraries of the school. So I would welcome to the passionate & compassionate learners in Nosegay.

Simran Bhatia

The great object of education should be in synchronisation with the object of life. It should be moral one, to teach self-reliance, to inspire the youth with an interest and love for one self; to know his own mind, his strengths, his limitations and his constant effort to get rid of his vices for an evolving, progressive, educative, liberal society.

We at Nosegay believe that education is not only limited for a student's development emotionally, physically and intellectually but an education of all stake holders, be it teachers, assisting staff members, parents etc. We are a team who are committed to a common objective of running this institution on values. I firmly believe our children get more educated by the behaviour of elders hence we prune ourselves into a sound role models. The whole system throbs with transparency, rationalism, values and our love for children.

Prof. (Dr.) P.S. SUDEN
Managing Director
